Your Excellency,

I have the honour to inform you that having become a party to the Agreement on Nordic Development Co-operation which was concluded on the 19th of July, 1968, between the Governments of Denmark, Finland, Norway, and Sweden, the Government of Iceland has expressed its willingness to participate in the Nordic-Tanzanian Co-operative Assistance Project based on the Agreement of the 13th of December, 1971, between the Government of the United Republic of Tanzania and the Governments of Denmark, Finland, Norway, and Sweden.

This being acceptable to the Governments of Denmark, Finland, Norway, and Sweden, I have the honour, on behalf of these Governments to suggest to the Government of the United Republic of Tanzania that the Government of Iceland is accepted as a party to the aforementioned Agreement as one of „the Nordic Governments“.

If the foregoing suggestion is acceptable to the Government of the United Republic of Tanzania, I have the honour to suggest that this letter and Your Excellency's written reply to that effect shall constitute an Agreement between Your Excellency's Government and the aforementioned Governments on the accession of Iceland to the said Agreement of the 13th December 1971.

I avail myself of this opportunity to renew to Your Excellency the assurance of my highest consideration.

The terms of the Agreement are the following:

Article II

1. Contributions by the Nordic Governments.

- a) Nordic personnel will be made available to Tanzania in such number and with such functions as set forth in the Plan of Operation. - b) The Nordic Governments shall make such financial contributions to the costs of the four Co-operative Wings and the study on the education system as agreed upon in the Plan of Operation.

2. Contributions by Tanzania.

- b) The Government of Tanzania will cover or cause to be covered all operational, administrative and capital costs and expenditures not contributed by the Nordic Governments in accordance with paragraph 1 of this article.
- c) The Government of Tanzania will ensure that arrangements are made for the Co-operative Union of Tanganyika to take over gradually the economic responsibility for the four Co-operative Wings with the effect that total financing of these activities will be provided from Tanzanian sources after the 1st of January, 1976.
- d) The Government of Tanzania shall make available the following facilities to the Nordic personnel and their families:
 - i) free housing with hard furnishing of the same standard as provided for officers of the Government of Tanzania of comparable status whose terms of appointment specify an entitlement to housing;

In the event that unforeseen expenses occur in implementing the Plan of Operation, the Competent Authorities shall meet to discuss the matter and shall recommend to the Parties such Amendments to this Agreement as the Competent Authorities may deem appropriate having regard to all the circumstances.

Article III

Exemptions and Privileges.

1. Any supplies, materials or equipment imported into Tanzania for the purpose of implementing this Agreement shall be exempted from import restrictions, taxes, customs duties and other fiscal charges. Any equipment to be purchased locally by the Nordic Governments for the implementation of the Plan of Operation may be bought from bonded stocks.

2. In all other cases the Nordic personnel shall pay or cause to be paid at the time of sale or other disposition of the articles in question all customs duty, sales tax and other fiscal duties which, but for this exemption, would have been payable at the time of importation or purchase, calculated on the value of the article in question at the time of sale.

If, however, claims arise in a case where gross negligence or wilful intention on the part of the personnel has been established, the Government of Tanzania may hold the person concerned liable to indemnify the Government of Tanzania.

5. Subject to mutual consultations the Competent Authorities or either of them shall have the right to request the recall of any member of the Nordic personnel whose work or conduct is dissatisfactory.

6. Without prejudice to the above provisions the Nordic Governments shall ensure that the Nordic personnel are informed that while they are assigned to Tanzania they shall, as resident aliens, be subject to the laws and regulations of Tanzania in force from time to time.

7. All material and equipment acquired in or brought into Tanzania for the purpose of implementing this Agreement (with the exception of the personal belongings of the Nordic personnel) shall immediately become and remain the property of the Tanzania Government who, as far as the four Co-operative Wings are concerned, shall hold the same in trust for the Co-operative Union of Tanganyika or its successors in law.

Notification of fulfilment or non-fulfilment of such requirements shall be given through diplomatic channels to all other governments Parties to this Agreement.

2. Within the terms of the Agreement subsidiary and follow-up activities may be agreed upon between the Parties. Such subsidiary agreement shall not remain in force after the expiry of the Agreement.

3. The Agreement may be terminated by either Party upon serving written notice on the other. Appendix I

Plan of Operation for Nordic Assistance to Co-operative Development in Tanzania 1972—1975

1. Introduction

The Tanzanian Second Five-Year Development Plan 1.7.1969-30.6.1974 indicates that one of the most significant developments in recent years has been the growth of the Co-operative Movement.

Apart from the Ujamaa development the recent rapid increase in the number of co-operative societies as well as their expanded functions and responsibilities, mainly in the field of marketing and credit, has placed a heavy strain on the Co-operative Development Division and the Co-operative Movement itself. The main constraint has been trained manpower, in as much as the Division is short of skilled staff at all levels. In order to provide the necessary guidance and supervision it is proposed to increase the strength of the Co-operative Development Department in terms of personnel from the present 360 to 1,070 officers and inspectors by 1973/74. The training programme of the Co-operative Development Division has therefore a very high priority. Also, the movement requires access to substantially greater facilities for training of committee members and key employees, with a measure of direct assistance in some cases such as management and accounting. Special attention will be given to increasing the participation of the Co-operative Movement in the distribution system.

2. The Nordic Assistance to Co-operative Development in Tanzania.

The Government of Tanzania has requested the Governments of Denmark, Finland, Norway and Sweden to provide technical assistance to the Co-operative Development in Tanzania during the period 1.1.1972-31.12.1975 of the magnitude stipulated below:

2.1 Nordic Personnel

The plan for the utilization of the personnel is as follows:

	1972	1973	1974	1975
Assistant Regional Co-operative Officers (ARCOs)	17	17	17	10
Special duties	1	1	1	1
Consumer Specialists	2	2	2	2
Economist at the Co-operative Union of Tanganyika Ltd. (C.U.T.)	1	1	1	1
Tutors at the Co-operative College	5	5	5	5
Instructor/Tutor at the Training Shop	1	1	1	1
National Study Organizer	1	1	1	1
Assistant Manager, Correspondence Institute	1	1	1	1
Study Organizer at Co-operative Wings	8	4	4	4
Total:	37	33	33	26

The functions of the personnel are described below.

2.1.1 Assistant Regional Co-operative Officers (ARCOs)

Assistant Regional Co-operative Officers in the overall promotion, organization, inspection and supervision of all kinds of cooperative societies in the region in which an officer is assigned.

Assist in guiding and advising the societies on day to day duties including accounting, formulation of development plans, budgeting and budget control, training of societies committee men and staff.

Advising and guiding the Co-operative Unions in starting and operating transport wings.

Assist in the operation of wholesale distribution departments of the Union including stock and cash control, market forecast, shop organization and assortment.

2.1.2 Special Duties

Make detailed study of co-operative operation including financing, management, organization, accounting, appraisal and evaluation of co-operative projects, programming of research projects, studies in internal markets, costs, collection and compilation of co-operative statistics, development, planning and evaluation of co-operative audited accounts and reports.

2.1.3 Consumer Specialists

Responsible for promotion, organization, inspection and supervision of consumer cooperatives, training of consumer staff in the running of the consumer shops, forming of consumer societies development plans and evaluation of operation and advice thereof.

2.1.4 Economist at the Co-operative Union of Tanganyika Ltd. (C.U.T.)

The Co-operative Union of Tanganyika Ltd. is the apex organization of the country's co-operative movement. Its functions are, among other things, to advise its affiliated societies on matters which a local society is unable to handle alone. The Union recently has embarked upon various activities pertaining to trade and commerce which call for skilled manpower.

In order to perform its duties effectively C.U.T. needs economists who can appraise various development projects not only for the Union itself, but who can also be called upon to assist affiliated unions. The economists would study, evaluate and analyse the activities being carried out and to be started by C.U.T. and those of affiliated unions.

2.1.5 Tutors of the Co-operative College

The Co-operative College in Moshi is offering co-operative education for staff members of Co-operative Development Division, Co-operative Unions and Societies as well as committee men at a more advanced level.

The plan of operation for the Co-operative College includes Nordic teachers to participate in the planning of courses, the preparation of teaching material and designing practical assignments for students, evaluation of students' performance, final assignment at the end of the course, conducting research work, and giving advice to students as well as general assistance to the college to maintain its policies.

One teacher will be required to have a B.Sc. degree (agriculture), preferably including farm accounting, management and statistics. Experience in co-operative work is also desirable.

The second teacher should also be a university graduate with qualifications in management or with considerable experience in co-operative management.

The third teacher with considerable background in whole-sale business is required to conduct relevant courses for the staff of the co-operative unions or of the consumer societies dealing with whole-sale and distribution business.

Two teachers with professional qualifications in accountancy costs and statistics or university degree including courses in accountancy, costs and statistics and business administration are required to teach on the diploma course, primarily.

An instructor/tutor in retail training to plan and conduct courses both at the Co-operative College and in the field, to supervise the training shop(s) and to participate in the planning and production of education material at the Co-operative Education Centre.

2.1.6 Nordic Education Specialists at the Co-operative Education Centre, Moshi

The Co-operative Education Centre, Moshi, is concentrating its activities on primary education of staff, committee men and members of co-operative unions and societies.

The plan of operation for the Co-operative Education Centre, Moshi, includes Nordic co-operative specialists. One will, as National Study Organizer, be required to organize study campaigns on a national level, to coordinate field activities including study activities for chairmen of primary and secondary societies, and to provide the co-operative wings with teaching material. Another specialist will as Assistant Manager of the Correspondence Institute assist the Manager of the Institute in performing his administrative duties, including production of course material and evaluation of students.

2.1.7 Study Organizers at Co-operative Wings

A Co-operative Wing is the regional office of the Co-operative Education Centre, Moshi. Each Co-operative Wing is working in close collaboration with the unions(s) and the Co-operative Development Division in the area concerned. The functions of a study organizer in charge of a co-operative wing are to support the Union Co-operative Education Secretary by organizing and participating in the education of committee men and of the staff and members of the co-operative societies and also to advise and train the Tanzania colleague.

2.2 Financial Assistance to Co-operative Wings

The co-operative wings established under the Danish-Swedish Agreement on Co-operative Assistance to Tanzania have proved most valuable, and the Tanzanian authorities feel convinced that the co-operative wings form an important part of the Tanzanian system for the education of the rural population.

While Tanzania with effect from 1.1.1972 takes over the costs of the wings established under the above-mentioned agreement the Nordic Governments will during the period 1.1.1972—31.12.1975 contribute to the establishment of four new wings.

The costs of operating these four wings will be as follows:

Year	Wings	Total Budget	Equipment	Running Costs	Tanzanian Contribution		Nordic Contribution	
					%	Shs.	%	Shs.
1972	4	440,000	160,000	280,000	0	0	100	440,000
1973	4	280,000	0	280,000	10	28,000	90	252,000
1974	4	280,000	0	280,000	25	70,000	75	210,000
1975	4	332,000	52,000	280,000	40	132,800	60	199,200
Total		1,332,000	212,000	1,120,000		230,800		1,101,200

A Co-operative Wing consist of a Nordic and a Tanzanian study organizer, a fourwheel drive vehicle and the necessary educational equipment. The salary and related benefits to the Tanzanian study organizer are included in the above cost figures. The vehicle is calculated at Shs. 27,000, film projector, generator and tape recorder at Shs. 9,400 and office equipment at Shs. 3,600.

Thus the total cost of establishment of each Co-operative Wing amounts to Shs. 40,000. Provisions are made for replacement of the vehicles in 1975.

The four wings will work as field offices of the Co-operative Education Centre in the area of Bukoba, Kibaha, Mbeya and Musoma.

After the establishment of these four wings all the 18 regions of Tanzania will be covered as follows:

Mtwara Co-operative Wing covers Mtwara Region and Lindi Region
 Songea Co-operative Wing covers Ruvuma Region
 Iringa Co-operative Wing covers Iringa Region
 Mbeya Co-operative Wing covers Mbeya Region
 Dodoma Co-operative Wing covers Central Region, Dodoma and Singida Regions
 Tabora Co-operative Wing covers Tabora Region
 Mwanza Co-operative Wing covers Mwanza and Shinyanga Regions
 Musoma Co-operative Wing covers Mara Region
 Bukoba Co-operative Wing covers West Lake Region
 Kibaha Co-operative Wing covers Coast and Morogoro Regions
 Northern Co-operative Wing covers Arusha, Kilimanjaro and Tanga Regions
 Kigoma Co-operative Wing covers Kigoma Region.

2.3 Financial Assistance to a Study of the Tanzanian Co-operative Education System

A comprehensive Co-operative Education programme has been undertaken in Tanzania during the recent years. For the purpose of making the experience obtained available, the Nordic Governments will, subject to terms to be agreed upon, contribute up to Shs. 100,000 to a comprehensive study of the Tanzanian Co-operative Education system. Such a study will be carried out in 1972 and will in particular emphasize aspects of the implementation and sociological effect of the Co-operative Education programme.

2.4 Study Arrangements in the Nordic Countries

In view of the rapid development in the field of co-operatives the Government of Tanzania has recognized a need for co-operative leaders to undertake studies in the Nordic Countries. It is therefore planned that study arrangements on subjects to be agreed upon, when considering the annual budget, will be undertaken. The necessary provisions to be allocated for this purpose by the Nordic Countries during the period 1972—1975 will not exceed Shs. 400,000.

3. Budget for the Nordic Contribution

The total budget for the Nordic contribution in accordance with the Plan of Operation amounts to:

<i>Operating Costs</i>	D.kr.
Nordic Personnel	22,400,000
Study of the Co-operative Education system	100,000
Study arrangements	400,000
 <i>Financial Assistance</i>	
4 Co-operative Wings (1,101,200 × 105.5)	1,200,000
 Total:	24,100,000

The magnitude of the Personnel stipulated in article 2.1 amounts to 127 "man years" exclusive of overlapping for replacements and training. Taking this into account, the Nordic Personnel Assistance is calculated at 140 "man years" of D.kr. 160,000, thus totalling D.kr. 22,400,000 (estimated in 1971 prices). The figure includes the costs of administration (6%), salaries and allowances (69%), transportation and insurances (17%), training (3%) and contingencies (5%).

Your Excellency,

I have the honour to refer to the correspondence which has been conducted between representatives of the Government of the United Kingdom of Great Britain and Northern Ireland and representatives of the Government of Iceland relating to the possibility of concluding an agreement between the two Governments with a view to the reciprocal granting of authorisations or licences to permit licensed amateur radio operators of either country to operate stations in the other country, in accordance with the provisions of Article 41 of the International Radio Regulations, Geneva 1959.

2. I now have the honour to propose on behalf of the Government of the United Kingdom that:
