

DECIDES:

1. For the purposes of the relations between the Member States and Finland the amendment of Annex G to the Convention referred to at Annex is hereby approved and submitted to all Parties to the Agreement for acceptance.

2. This Decision shall enter into force when the representatives in the Joint Council of all Parties to the Agreement have either accepted it without reservation or notified the Secretary-General that they can finally accept this Decision, but not before the Council Decision No. 7 enters into force.

3. The Secretary-General of the European Free Trade Association shall deposit the text of this Decision with the Government of Sweden.

Annex**AMENDMENT OF ANNEX G TO THE CONVENTION**

Sub-paragraph (a) of paragraph 6ter of Annex G to the Convention, which by virtue of Article 2 of the Agreement applies also in relations with Finland, shall be amended to read as follows:

English text:

“(a) Notwithstanding the provisions of Article 3 of the Convention and of paragraphs 4 to 6 of this Annex, the Council may authorize Portugal on its request to apply an import duty on particular products. The list of such products shall be established by the Council upon the entry into force of this paragraph. The Council may amend that list. It shall specify for each product the ad valorem duty which may be authorized up to a maximum rate of 20 per cent.”

Fylgiskjal.**a. Bréf sendiherra Finnlands til fjármálaráðherra Tansaníu.**

Your Excellency,

With reference to the Agreement between the Governments of Denmark, Finland, Iceland, Norway and Sweden and the United Republic of Tanzania on assistance to the Uyole Agricultural Centre — Mbeya (hereinafter referred to as the Previous Agreement), signed in Dar es Salaam on October 16, 1978 and especially to its Article 9§1 stating that the Previous Agreement was due to expire on June 30, 1981, I have the honour to make known that upon the Formal Request, dated May 2, 1981, submitted by the Ministry of Manpower Development of Tanzania, the above mentioned Nordic Governments have taken steps to provide the centre with continued personnel as well as other form of assistance, as described in the Plan of Operation attached hereto (Annex A), beyond the Previous Agreement period. However, it is mutually understood in view of the present situation at the Centre that the extension of the Previous Agreement should at this stage be only for another year (hereinafter referred to as the Transition Year). During the Transition Year, July 1, 1981 — June 10,

1982, the terms and conditions of a new agreement will be worked out in the light of the progress made during that period.

The Nordic Governments are prepared to contribute additional funds, amounting towards 14 000 000 Tanzanian shillings, to the Uyole Agricultural Centre, as specified in the Cost Estimate included in the Plan of Operation.

The Nordic Governments are willing to provide personnel assistance in the framework of the above mentioned contribution, (12 man-years) including assistance for recurrent expenditure at 2 000 000 Tanzanian shillings to be earmarked for research and training.

However, the assistance by the Nordic Governments during the Transition Year is subject to the provision that the Centre shall be ensured a minimum level of subvention of 13 000 000 Tanzanian shillings by the Government of the United Republic of Tanzania with specific allocations for research and training, in order to ensure an undisturbed functioning of these activities.

I have the honour to propose that the provisions of the Previous Agreement shall remain valid until June 30, 1982, with the following alterations:

1. Annex A of the Previous Agreement shall be replaced by the new Plan of Operation and Cost Estimate attached hereto as Annex A,

2. Annex C of the Previous Agreement shall be replaced by the new Payment Procedure Plan attached hereto as Annex C,

3. as far as the stipulations of the Previous Agreement, including its Annex B, are in contradiction to the stipulations of the above mentioned new Annexes A and C, the former shall be replaced by the latter.

The status of the expatriate staff provided by the Nordic Governments for assignment at the Uyole Agricultural Centre and the obligations of the Nordic Governments and the Government of the United Republic of Tanzania towards such staff members shall remain unaltered.

If the foregoing proposal is acceptable to the Government of the United Republic of Tanzania, I have the honour to suggest that this letter and your written reply to that effect shall constitute an Agreement between the Nordic Governments and the Government of the United Republic of Tanzania on the extension of the Previous Agreement with the above outlined modifications.

I avail myself of this opportunity to renew to Your Excellency the assurance of my highest consideration.

Dar es Salaam, 28th April, 1982

Risto Kauppi
Ambassador

His Excellency
Mr. Amir Jamal
Minister of Finance

b. Svar fjármálaráðuneytis Tansaníu til sendiherra Finnlands.

31 May 1982.

Excellency,

I have the honour to refer to your letter No. 1244 of 28th April 1982 which reads as follows:

[Sjá bréf hér að framan]

I have the honour to confirm that the above mentioned proposals are acceptable to the Government of the United Republic of Tanzania and that your letter and my note in reply to that effect shall constitute an Agreement between the Nordic Governments on the extension of the Previous Agreement with the above outlined modifications.

Please accept, Your Excellency, the assurances of my highest consideration.

F. M. Kazaura.
Principal Secretary to the Treasury.

H.E. Mr. Risto Kauppi
Ambassador
Embassy of Finland
Dar es Salaam

Annex A

To the Agreement between the Nordic Governments and the Government of Tanzania on Assistance to the Uyole Agricultural Centre.

THE PLAN OF OPERATION

The following Plan of Operation applies to the Assistance Project to the Uyole Agricultural Centre as provided for in Article III of the Agreement.

(a) Objectives and scope of activities

The general objective of the Project is to continue to consolidate the activities, which were started during the establishment phase of the Centre in 1972—1976. In more particular, the Project should be directed by the following main specific objectives and policies:

— Continuity in the service of all qualified staff members of the Centre is a fundamental precondition for the consolidation of its activities. Staff transfers shall therefore be made only when absolutely necessary and staff members, who are selected for further academic training under the Project, shall return to serve the Centre for a minimum period after the completion of the training course.

— Strict financial management is another precondition for the consolidation of the activities. Special efforts shall be made to develop and to maintain good standards of accountancy, budgeting and financial control. While increase in the recurrent expenditure of the Centre shall be kept to an absolute minimum, provisions shall also be made for annual depreciations of farm machinery and motor vehicles with an aim of generating funds for their required gradual replacement.

— The research and development services of the Centre shall first of all be oriented towards meeting basic needs of a majority of the population of the regions. Special emphasis shall therefore be put on activities aimed at identifying constraints to improved agricultural production and economy on village level and on activities aimed at sustained improvements in production, economy and environmental conditions.

— Government is providing ample personnel resources to organise and carry out agricultural advisory and extension services intended to benefit the villagers. The Project aims at strengthening the capacity of the Centre to support the activities of the field staff and to equip them with relevant information, advice, extension aids and material, thus to facilitate the fullest possible use of available personnel resources.

— The Project aims at assisting the Centre to maintain high standards in the documentation of its research, surveys and experimental activities to facilitate continuity and to strengthen the base for future work.

— The large scale farming unit at Uyole serves the multiple purposes as an enterprise to generate income for the Centre, as a training ground for agricultural technicians and as an experimental and demonstration farm to guide national policies. It ranks among the first of its kind in the country.

— The Project aims to give further support to the farm by replacing some worn out machinery and completing the stock of spare parts. The Project also aims at assisting the Centre to organize its maintenance functions and to develop the required manpower capacity to that effect.

— The Project aims to develop the sub-stations to meet the requirement of their basic objectives, i. e. to make trials, demonstrate good farm practices and to give support to seed production in the districts. All demonstration production should be realistic for replication in the villages. A restrictive attitude to actual production activities is desirable.

— The Centre is making continuous efforts to apply and to demonstrate husbandry technologies by using implements manufactured by the Centre from locally available materials. The Project aims at assisting the Centre to continue the development and application of such alternative technologies and to demonstrate and advertise their feasibility under different conditions.

— The implementation of the Project will involve the Centre management in duties and operations, which fall beyond its normal activities. Effective implementation of the Project requires strict coordination, broad experience and a variety of skills, which cannot be made available by the Centre. The Centre will therefore be assisted by a Project Coordinator. This is considered necessary, because the other Nordic staff members included in the planned assistance should concentrate on their special fields of expertise, for which they are particularly required to meet the objectives of the Project. The Nordic personnel assistance during the period will correspond to approximately 12 man-years as specified in the budget, section I. The personnel assistance is considered a crucial element of the consolidation phase and should therefore be provided during the entire period.

The Nordic Assistance Programme to U.A.C. during 1981—1982 will consist of:

	T.shs
I. Personnel assistance, approximately 12 man-years	5,000,000
II. Capital expenditure (including staff training programme)	6,000,000
III. Recurrent expenditure	2,000,000
IV. Administrative expenditure (Nordic Administration)	1,000,000
Total	14,000,000

The Project shall be evaluated by the Competent Authorities Before October 1, 1981 so as to enable the terms and conditions of a new agreement to be worked out in the light of the progress made since the Evaluation in March — April 1980.

**PLAN OF OPERATION AND BUDGET (Tshs)
FOR THE PERIOD 01.07.1981—30.06.1982
(NORDIC FUNDS)**

I. PERSONNEL ASSISTANCE

The Nordic Governments shall make available the services of competent expatriate staff to fill

the following posts of the Centre during the transition year 1981—1982:

- Project Coordinator
- Finance and Administration Officer
- Chief Accountant
- Officer for Documentation to be in charge of the Printing Unit
- Research Officer for Food Technology
- Training Officer for Agro-Engineering to be in charge of the Training Workshop
- Training Officer for Agro-Engineering, spec. Farm Structures
- Training Officer, spec. Audiovisual Aids
- Farm Manager
- Maintenance Engineer
- Farm Machinery Instructor
- Workshop Manager

The Expatriate Staff Members shall put emphasis on the training of their Tanzanian counterparts.

The status of the Expatriate Staff is specifically defined in Annex B of the Agreement between the Nordic Governments and the Government of Tanzania on Assistance to the Uyolet Agricultural Centre for the period 01.07.1978— 30.06.1981.

The cost for the above 12 man-years is estimated to approximately 5,000,000/=.

Grand total: 2.000.000**Annex C****To the Agreement between the Nordic Governments and the Tanzanian Government on the Assistance to the Uyole Agricultural Centre.**

The following provisions apply to the payment of financial contributions referred to in Article IV of the Agreement. The provisions may be amended from time to time by the Competent Authorities as stipulated in Article III, paragraph 3.

1. Nordic Governments shall make available their contribution (Article IV in the Agreement) towards the costs of the Programme specified in the Plan of Operation, Annex A. The sum paid shall be in accordance with the current financial year's Plan of Work and Budget.

The balance of the funds made available are transferable to the next financial year provided there will be a new Agreement.

2. The financial contributions of the Nordic Governments shall be paid into an account with The National Bank of Commerce, Foreign Branch, Dar es Salaam, except for:

(i) salaries and related emoluments paid by the Nordic Governments to the Nordic staff.

(ii) funds earmarked for procurements referred to in Article IV, paragraph 4 of the Agreement.

3. (a) The account mentioned in paragraph 2 above shall be operated jointly by persons authorized by the Ministry for Foreign Affairs of Finland.

(b) If any amount remains unspent in the account on the expiration of the Agreement, the Competent Authorities shall agree upon the use of the balance.

4. The Board for Nordic Development Projects has the right to arrange for the audit of the account records and documentation of the financial contributions.
